## TIPS FOR TEENS

**The book of dating**

**Judith U. Scott**

Guidelines to all the social situations which bring boy and girl together.

**392 S427b**

**Letters to Karen**

**Charlie W. Shedd**

Letters to a bride-to-be on how to keep love in her marriage—forever.

**392 S541L**

Illustration by  
Erica Perl Merkling  
for *A new you*  
by Emily Wilkens.  
(Putnam)

**A new you; the art of good grooming**

**Emily Wilkens**

"How to eat right, dress right, make up right" to develop your potential for beauty.

**646.7 W684n**

**What's right with our young people**

**Grace N. Fletcher**

Alcohol, patriotism, sex, brotherhood, and belief in God—here's what young people think about these significant issues.

**301 F6123w**

**Your personality and you**

**Sarah Splaver**

What makes you, exclusively you? **155 S761y**

## WORLD OF TODAY...

**Beautiful upon the mountains** Murrell Edmunds

Marva was ready to enter Deep Forest College as its first Negro student after her summer at Grand Oaks and her friendship with Leigh Stuart.

Fiction

**Flying saucers—serious business** Frank Edwards

From all over the world come reports of UFO sightings. What are these unknown objects? Who controls them? And what do they mean to the human race?

629.13 E26f

**The Glass House: the United Nations in action**

James J. Wadsworth

Member nations work within the agencies of the "glass house" to bring help and hope, peace and prosperity, to peoples all over the earth.

341 W124g

**I saw Red China**

Lisa Hobbs

On busy streets, in modern factories, in crowded theaters and restaurants, a California newspaperwoman observed the renewed vigor of life behind the Bamboo Curtain.

951t H682i

**Leaders of the new Africa**

Edna M. Kaula

"The new leaders, who are for the most part young, had to be men of exceptional force and self-assertion to cut across the discipline and loyalties of their respective colonial states."

920 K215L

**Men of modern architecture**

Aylesa Forsee

Through creativity and self-discipline, these eight men have changed the concept of what a building is and how it should look.

720 F732m

**The missile crisis**

Elie Abel

How did the United States and the Soviet Union avert nuclear war during those fateful days in October 1962?

972.91 A139m

**The Peace Corps**

Edna McGuire

If you are capable of adapting to a totally different life, ready to learn a new language, and willing to work hard, the Peace Corps is for you.

309 M148p

**A small war made to order**                    **Norman Lewis**

It was a safe, simple, fool-proof assignment for a friendly government. But when journalist Charles Fane landed in Cuba, he discovered that spies, under any guise, are expendable.

**Fiction**

## ...AND TOMORROW

**The best from Fantasy and Science Fiction**

**Edward L. Ferman, ed.**

New York City with eight billion people? A stagehand who may be Shakespeare? A woman who turns into a horse? They all may be possible!

**Fiction**

**Cities of wonder**

**Damon F. Knight, ed.**

Stinking, merciless, overcrowded, sprawling over whole planets, mechanized beyond recognition - are these the cities of the future?

**Fiction**

**Fantastic voyage**

**Isaac Asimov**

Four men, one woman, and one atomic submarine navigate through a scientist's blood stream to remove the blood clot on his brain.

**Fiction**

**Orbit. 1-**

**Damon F. Knight, ed.**

Every story is "a voyage of discovery into strange places of the universe and of the human psyche."

**Fiction**

**Player piano**

**Kurt Vonnegut**

At the height of the Age of Automation a top engineer rebels against the control of the machine.

**Fiction**

**Twice twenty-two**

**Ray Bradbury**

Can the death of a butterfly change the future? Can Cecy, one of an odd family, fall in love?

**Fiction**

**The Vintage anthology of science fantasy**

**Christopher Cerf, ed.**

A computer turns author and a bewitched bicycle defies destruction in these tales of tomorrow.

**Fiction**

## ON TRIAL

**Favorite trial stories** A. K. Adams, comp.  
A Shylock is trapped by his own greed; Abe Lincoln's shrewdness saves a client and establishes a legend; a Parisian goes to the guillotine protesting his innocence of wholesale murder.

Fiction

**I, the lawyer** Luis Kutner  
From simple rules to the regulation of outer space, the Law stands for a dignified, peaceful world with justice and humanity for all.

340 K97i

## FOR GIRLS ONLY

**At some forgotten door** Doris M. Disney  
She had youth, beauty, and now a fortune, yet Hetty knew she would never be happy, for the man she loved was her cousin's husband.

Fiction

**A candle in her room** Ruth M. Arthur  
Until Judith's granddaughter found her, Dido, the witch doll, held three generations under her strange, evil spell.

Fiction

**Columbella** Phyllis A. Whitney  
The cool elegance of the house at Charlotte Amalie, Jessica found, harbored dark shadows of hate, suspicion, and murder.

Fiction

**Dream of fair woman** Charlotte Armstrong  
She lay asleep in a trance, the unknown girl whose beauty inspired men to dream and impelled them to murder.

Fiction

**Go away, Ruthie** Laura N. Baker  
When she moved next door, Ruthie was plain and awkward. But yesterday she married Lynn's boy friend, Smash.

Fiction

**Highland masquerade** Mary Elgin  
Take three people traveling in disguise, add a search for the real chief of Glenshael complicated by one ancestral curse, and the result is romance spiced with mystery.

Fiction

**Hold yourself dear** Pauline C. Smith  
Merle had an all-A average and a reputation for never having been kissed. Neither one, Harriet told her, would help get dates.

Fiction

Jacket design for  
Lillian Pohlmann's *Love can say no.*  
(Westminster)

**Love can say no**

**Lillian Pohlmann**

Should she marry Danny now, or should she go to her father's new family in California? Jen had only a little while to make her decision.

Fiction

**Monks' Court**

**Katherine W. Eyre**

Idly, Katherine looked across the courtyard with no foreboding that the charming scene she witnessed would lead to suspicion, danger - and love.

Fiction

**A second chance**

**Vian Smith**

"A hoodlum on a motorcycle," Johnny came, on probation, to the new world of Petrock, racing horses, and Jessica.

Fiction

**Sometimes magic**

**Hallie Burnett, ed.**

Have you ever been in love with an "unsuitable" boy? Has your best friend betrayed your confidence? Have you ever made a decision that marked you as "different"?

Fiction

**Watch the wall, my darling**

**Jane A. Hodge**

Richard, handsome, polished, urbane - or Ross, suspected smuggler and spy? By the terms of her grandfather's will, Christina would have to marry one of them.

Fiction

# PERSONALITIES

- Adlai Stevenson** William Severn  
He lost the race for President but went on to achieve greatness on the world stage of the United Nations. 92 S847se
- American heroes all** Albert B. Tibbets, comp.  
The freckled stableboy spying for the Swamp Fox; Davy Crockett at the Alamo; Eddie Norton on the lonely beaches of Korea - all fought for freedom. Fiction
- Bret Harte** Richard O'Connor  
Paradox and enigma, this effete Eastern dude wrote of gold diggers and gamblers; he lived in Boston and London but he created the legend of the Great West. 92 H327oc
- The challenge and the triumph** Army Times  
As cadet, athlete, military leader, and President, Dwight Eisenhower lived by "the Point's" code: honor, duty, country. 92 E359ba
- Commander of the Flying Tigers: Claire Lee Chennault** Joseph Archibald  
Colorful and controversial, General Chennault perfected a team of combat fighters, and master-minded air warfare over China. 92 C518ba
- Empress of all Russia: Catherine the Great** Iris Noble  
She came to Russia as a small, determined child of fourteen and, through her own courage and intelligence, became one of the most powerful rulers the world has known. 92 C361no
- Eugene Debs** David F. Selvin  
Leader of the great Pullman strike of 1894, a presidential candidate from behind the bars of a federal penitentiary, Debs was, all his life, an uncompromising fighter for justice and equality. 92 D288se
- Flora** Elizabeth J. Vining  
The English had spread a net over all of Scotland to capture the Stuart Prince, and it fell to Flora's lot to help him escape. 92 M1352vi

**In search of paradise** **Paul L. Briand**  
Brought together from two different worlds by  
their exploits in the Lafayette Escadrille, two  
young men set out for Tahiti to seek adventure  
and to write. **92 H177br**

**The martyrs** **Jack Mendelsohn**  
A Boston clergyman builds an honor roll of  
sixteen men, women, and children who gave their  
lives for racial justice. **920 M537m**

**Oliver Cromwell** **Israel E. Levine**  
Born in bloodshed and revolution and ending  
with the life of its creator, Cromwell's Free Com-  
monwealth laid the basis of representative gov-  
ernment in England. **92 C946Le**

**Remember the ladies** **Emily T. Douglas**  
From Anne Hutchinson's trial as a heretic to  
the determination which drove Eleanor Roosevelt  
to pursue a public life, women have helped to  
make America great. **920 D733r**

**Seekers of tomorrow** **Samuel Moskowitz**  
Who were the writers whose inventiveness  
predicted today? Who are those whose imagination  
and verve project us into tomorrow? **809 M911s**

## HERITAGE

**After the Alamo** **Burt Hirschfeld**  
It began with disaster at the Alamo and ended  
with a proud addition to the United States. But  
was the war aggression or was it a defense of  
American liberty? **973.6 H669a**

**The classical world** **Donald E. Strong**  
From the bronze figurines of Crete to the magni-  
ficent marble statues of Greece, the art of the  
Hellenes embodies their belief in the beauty and  
harmony of man. **709 S923c**

**Dr. Johnson and his world** **Ivor Brown**  
Samuel Johnson lived in a world of silks and  
splendor, rags and squalor. **828 J69zbr**

**Frontiers in archeology** **Robert Silverberg**  
To reconstruct the past, modern archeologists  
use radioactive carbon-14, aerial photography,  
and spectrometers - startling tools that produce  
startling results. **930a S587f**

**The iron peacock**

Mary S. Clarke

Penniless and alone after her father's death on the voyage to the New World, Joanna Sprague has no choice but to sign herself over as an indentured servant.

Fiction

**The king of men**

Olivia E. Coolidge

As the gods on Olympus watched and planned and smiled, the young boy, Agamemnon, succeeded to his father's ill-fated throne.

Fiction

**Mr. Roosevelt's four freedoms** Frank R. Donovan

In the dark days of World War II, that practical idealist, F.D.R., began to plan America's role in a world organization dedicated to lasting peace.

341 D687m

From Victor W. Von Hagen's *Roman roads*,  
drawn by Dino Rigolo. (World)

**Roman roads**

Victor W. Von Hagen

53,000 miles of roads extending from the Atlantic to the Caspian Sea and from Scotland to North Africa carried Roman civilization to the corners of the known world.

937 V946r

**The tide turns**

Donald B. Chidsey

General Howe moved, unopposed, through New York and New Jersey. English ministers prepared to celebrate the end of a colonial rebellion. Then, Washington and his ragged army produced a miracle.

973.3 C533t

## SPORTS AND HOBBIES

### Automobiles

Baffled by the maze of hoses, wiring, and manifolds under the hood? Here's how they operate to give you top performance and safety.

629.2 Y47a

### The basics of fishing

Allan T. Williamson

"Whether you are a worm-dunker, a plug-tosser, or a dry fly puritan," here's what you need to know to get the most out of fishing. 799 W729b

### Catching

Elston Howard

"Catchers come in all sizes," says a catcher who should know, "but brains and baseball knowledge are more important than size."

796.3 H848ca

### Drag racing, yesterday and today

Wally Parks

Speed, controlled power, and spectacular performance are the essence of this unique sport.

796.7 P 252d

### Go up for glory

William F. Russell

One of the sport's all-time greats tells of being a Negro, an American, and a professional basketball star.

92 R9685a

### Invitation to modern skiing

Fred Iselin

"Ski for fun, with grace and ease, and always under control. This is the art of skiing."

796.9 I78im

### Learning to cartoon

Syd Hoff

Two key requirements: you must have strength enough to lift a pencil and persistence enough to practice, practice.

741 H698L

### The look of cars

Henry B. Lent

Yesterday, automobiles were boxes on wheels; today, styles are sleek and streamlined; tomorrow, we may be driving missile-shaped vehicles with three wheels.

629.2 L574L

### Motorcycle sport book

Lynn Wineland

An expert cyclist tells you how to buy, ride, and enjoy your bike.

796.7 W767m

## IN RHYME

A book of love poems William Cole, ed.  
Love is a many-splendored, many-mooded  
thing. 821.08 C689bL

Memorable poetry, chosen from all periods  
Sir Francis Meynell, ed.  
For those with "a heart and an ear for poet-  
ry," here are verses to read, recite, and revel in.  
821.08 M6143m

## WITH A SCIENTIFIC BENT

The armor within us Joseph Samachson  
Someday research into how and why bones  
grow may give us control over the shape of our  
faces and the development of our bodies.  
611 S187a

The deepest days Robert Stenuit  
In the longest, deepest plunge ever made by  
man, two divers for Project Man in Sea lived in  
a tent, submerged at 432 feet, for two days.  
797.2 S826d

Fuel cells H. Arthur Klein  
A submarine powered by a small box, a mo-  
tor with no moving parts, a light, compact, non-  
vibrating source of energy for spacecraft - fuel  
cells make all these possible. 621.35 K64f

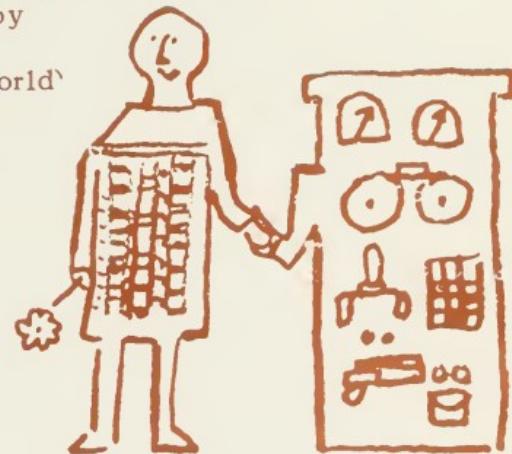

Fun with the new math Jerome S. Meyer  
Puzzles based on the New Math show you how  
to think through a problem. 510 M612fn

The laser Ben Patrusky  
Tamed by a laser, light beams can give us a  
painless method to drill teeth, or they can help  
in the search for life in outer space. 535 P314L

Mathematical entertainments M. H. Greenblat  
Can you solve Goldbach's Conjecture, the  
Careless Indian who Drops his Paddle, or Grun-  
dy's Game? 510 G798m

The neutrino Isaac Asimov  
In 1931 scientists invented a nothing-particle  
to justify mathematical calculations. In 1956 the  
neutrino turned out to be real. 539 A832n

Illustration by F. W. Taylor  
for *Numbers at work* by  
Hyman Alterman.  
(Harcourt, Brace & World)

### **Numbers at work**

**Hyman Alterman**

Using the detailed data of many individual records, statistics makes complicated information simple and understandable.      311 A466n

### **The ocean world**

**Vladimir Kovalik**

Utilizing satellites and nuclear physics, combining marine biology and archeology, oceanographers explore the last frontier on earth.

551 K88o

### **The origin of the solar system**

**Sky and Telescope**

How did it all begin? Is there other life on other worlds? Distinguished scientists air their views.      523.2 S629o

### **Tales told by fossils**

**Carroll L. Fenton**

On tiny shells and stones and on mountainous slabs of rock, fossils record life on earth 2700 million years ago.      560 F342t

### **Thirty years that shook physics**

**George Gamow**

Still incomplete, the revolutionary concept of quanta, developed by eight renowned physicists, has played a major role in creating our atomic age.      530 G194t

### **The useful atom**

**William R. Anderson**

"The incredible atom is diagnosing disease and curing the ill, creating fresh water and identifying criminals." These are the ways to live with the atom instead of dying from it.

621.48 A552u

### **Wildlife communities from the tundra to the tropics in North America**

**Clarence J. Hylander**

In desert or grassland, in forest or tundra, all living things must adapt to the conditions surrounding them - or die.      574 H996w

## A MAN'S WORLD

**The billion dollar brain**

**Len Deighton**

General Midwinter builds a tremendous computer designed to destroy all modern governments so that he can replace them with his own empire.

**Fiction**

**The naked runner** **Arthur L. B. Thompson**

To buy the release of his son, held hostage by the Vopos, ex-British intelligence agent Sam Laker undertakes a murderous mission. **Fiction**

**The plan for Birdsmarsh** **K. M. Peyton, pseud.**

Paul was determined to thwart the plans for the new marina which would take his family's farm - until he ran into the scheme involving his brother Chris. **Fiction**

**The pulse of danger** **John Cleary**

Why were Red Chinese soldiers invading neutral Bhutan? Jack Maquis and his fellow scientists, attempting to reach India by a march over the Himalayas, find the answer in a deserted cave. **Fiction**

**The Strode venturer** **Ralph Hammond-Innes**

Only Peter Strode knew the exact location of the tiny unexplored, uncharted island whose shores held a potential fortune. But Peter Strode had disappeared. **Fiction**

**13 ways to dispose of a body**

**Basil Davenport, ed.**

Once a murder has been accomplished a big problem still remains: what to do with the corpse?

**Fiction**

**Wyatt's hurricane**

**Desmond Bagley**

Meteorologist David Wyatt realized that the twin disasters, Hurricane Mabel and revolution, could explode over San Fernandez simultaneously. **Fiction**

## LAST LOOK

**Jacqueline Kennedy**

**Robert T. Harding**

"She came among us like some wildly unexpected fairy queen, and with her goes the heart of everyone who lived in this place when she did."

92 K352ha
